

ROTOcut^{UP}

Blade System

The geometry of the Rotocut Blades has been studied not only to eliminate the clogging problems in the cutter group, but also to facilitate the action of the hoes themselves.

**Decreases
Mechanical Effort**

**Save
Time and Fuel**

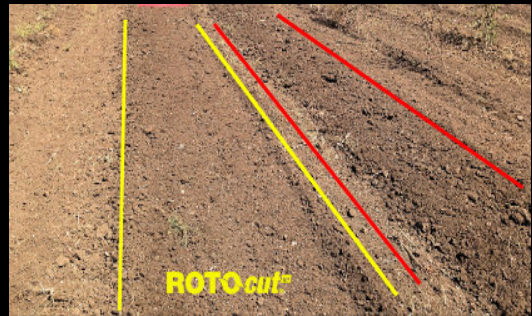

ROTOcut^{UP}

Blade System

A Fertilizing effect, that is ,
the brushwood will be chopt up
and mixed in to the soil

**Better soil
pulverization**

**Greater depth of
action of the milling unit**

ROTOcut^{UP}

Blade System

Suitable for any type of terrain

Wet Ground

Dry Ground

Stony Ground

For any Type of
Rotary Tillers and
Cultivators

Rotocut^{UP}
